LOUISE'S ADVICE

Sharon, 45, Relationship Consultant. Sharon has a round shape to her face so we gave her a hairstyle that would make her round cheeks slimmer. We decided not to give her a fringe because it would make her face look shorter and rounder. Sharon has small eyes so we applied eyeliner only halfway on the bottom lid (from the outside in) to open up her eyes. We then applied four layers of mascara to give Sharon more length on the top eyelashes. Choose soft fabrics to camouflage your full tummy and wide hips.

"I was, initially, very skeptical but, in the end, I was blown away with the end result."
